Billing and Fees Explanation

For clients who opt to not use insurance our hourly base rate is \$250 (\$125 per half hour) for medication management. These rates may vary based-on services provided but will not exceed \$350 for an hour (\$175 per half hour).

For clients who opt to use insurance the rate for services is set by your individual insurance company. Unfortunately, due to contractual obligations we are not permitted to reveal their rates. The rates average the same as our cash rates.

No Show/Late Cancellation Fee (within 24 hours): For a one-hour appointment the fee is \$250, for a half hour appointment it is \$125. This fee can be forgiven/waived on a case-by-case basis at the discretion of your provider.

We submit claims to insurance companies on a weekly basis. It can take anywhere from two weeks to a few months for a result. We will send a bill in the mail. After two bills are sent without reply we will charge the on-file credit card.

Please see the Consent to Treat form for information on the fee structure for afterhours/crisis services as well legal services.

We do offer a sliding scale fee structure based on economic need. If you do not have insurance or have a high deductible plan please ask about this option.
